Service

Responsiveness

We understand the importance of timing and strive to communicate clearly, consistently and quickly at all times.

Transparency

Aesir believes in principled, open, and respectful discussions that promote sustainable solutions and relationships.

Consistency

Aesir's goal is to avoid unnecessary surprises and provide reliable solutions through consistent underwriting and claims support that clients and brokers can depend on.

Collaboration

Comprehensive Risk Analysis

Aesir strives to achieve the best possible understanding of our clients' operations, risks, and goals in order to enhance our ability to respond to challenges, change and our focus on those issues that truly matter to clients.

Flexible Option-Based Underwriting

Aesir's unique combination of creativity and technical expertise allows us to understand, evaluate and work collaboratively to craft options that protect against even the most challenging risks.

Ease of Use

Aesir's goal is to work with clients and brokers to ensure that even the most complex risk and deal structure are executed with as little difficulty as possible by focusing on what truly matters.

Claims

Aesir realizes that the promises made by our underwriters are fulfilled through the claims process. Our expertise includes understanding the challenges of high-stakes litigation and our ability to be clear, principled, and responsive to best support clients under pressure. Our selective choice of fronting insurers demonstrates this commitment.
